

# ONKAR BORGAONKAR

+91 7057063094 Pune, Maharashtra IN borgaonkar1998@gmail.com  

## Professional Summary

Detail-oriented Full Stack Developer with 1 year of experience building web applications using the MERN stack, Angular, and PHP (Laravel, CodeIgniter). Delivered production-grade systems including a student data tracking platform for the Goa Education Board. Strong in API development, UI/UX integration, and database design. Collaborated with cross-functional teams and mentored junior peers to deliver features on time. Known for quick learning and writing clean, maintainable code.

## Professional Experience

**Edhaas Digisoft** Jun 2024 – Present  
Pune, Maharashtra

*Jr. Software Developer*

- Led end-to-end development of a comprehensive student data tracking system for the Goa educational board, improving data management efficiency and accessibility for educational stakeholders.
- Developed and enhanced multiple applications using diverse technology stack including Angular, PHP, Laravel, CI-3, SQL, React, and Express, demonstrating versatility across frontend and backend technologies.
- Led and mentored a team of 4 developers, ensuring timely project delivery and cultivating a culture of continuous learning and knowledge sharing.
- Actively participated in recruitment processes and represented the development team at industry events, enhancing company visibility and contributing to talent acquisition efforts.
- Executed marketing and networking initiatives at business events, effectively communicating technical solutions to non-technical stakeholders and establishing valuable industry partnerships.

**Firellama Pvt Ltd** Dec 2023 – May 2024  
Vadodara, Gujarat

*Full Stack Intern*

- Independently designed and deployed a full-fledged Internal Sales portal, achieving full-scale functionality with a 100% project fulfillment rate using Next.js, Express.js, and MongoDB.
- Engineered sophisticated admin, employee, and customer APIs, which increased system efficiency by 30% and streamlined operational workflows for improved oversight.
- Accelerated the candidate onboarding process by 30%, engineering an automated workflow to enhance the candidate experience from recruitment to integration.
- These cumulative enhancements significantly uplifted the platform's performance, ensuring robust system speed and reliability for a measurable uptick in overall productivity.

## Projects

**Hotel-POS** | *MongoDB, Express.js, React.js, Node.js, Redux, Socket.IO* Git

- Developed a comprehensive full-stack POS system for hotel owners using MERN stack and Redux with Admin and Waiter sections.
- Implemented real-time table status and order management using Socket.IO with live dashboard updates.
- Built robust admin functionalities with complete CRUD operations for managing waiters, tables, menus, and customers.
- Integrated payment processing solutions with Razorpay and cash options with seamless order and payment tracking.

**React-Redux-Ecom** | *React, Redux Toolkit, Express.js, Tailwind CSS* Git

- Developed an E-commerce website using React, Redux Toolkit, and Express.js for integrating cart and favorite functionalities.
- Implemented a responsive UI with Tailwind CSS, ensuring optimal performance across diverse devices.

## Technical Skills

**Frontend:** React.js, Angular.js, Next.js, React-Native, Redux.js, JavaScript, Bootstrap, Tailwind CSS, Responsive Design

**Backend:** Express.js, Laravel 11, CodeIgniter 3, Node.js, PHP, REST APIs, JWT, Socket IO

**Database:** MongoDB, SQL, Redis

## Education

**Sandip Institute of Technology and Research Centre** Aug 2018 – Aug 2022  
GPA: 8.23/10

## Certifications

- CISCO JavaScript Essentials
- Introduction to CSS3
- Introduction to HTML
